The logistics & supply chain management department at Georgia Southern University offers a four-year bachelor's degree in logistics and intermodal transportation and a bachelor's degree in management with an emphasis in operations management. These degrees provide students with the problem-solving skills and supply chain knowledge needed to manage and lead modern organizations. The department also provides courses to develop skills in business students by teaching upper level core classes in business statistics, optimization, and operations management.

BBA in Logistics and Intermodal Transportation (LIT)

Logistics and Intermodal Transportation serves the needs of dynamic industry sectors, ensuring the availability of the right product, in the right quantity and the right condition, at the right place, at the right time, for the right customer, at the right cost. Intermodal transportation is combining the cost and/or service advantages of more than one mode of transportation in an efficient, seamless product movement. Basic LIT courses focus on logistics and transportation concepts and principles. Advanced courses focus on logistics operations, international logistics, and intermodal distribution issues.

Major Courses*
