Lecturer in Enterprise Systems and Analytics - Search #67752
Parker College of Business
Department of Enterprise Systems & Analytics

The Department of Enterprise Systems & Analytics in the Parker College of Business invites applications and nominations for a Lecturer in Enterprise Systems and Analytics position. The home campus for this position will be the Statesboro campus but may have teaching assignments on multiple campuses as needed.

Georgia Southern University is a distinctive combination of Southern charm and uncompromising academics. We are a Carnegie Doctoral/R2 institution serving about 26,500 students through nine colleges on three beautiful oak-lined campuses in Statesboro, Savannah, Hinesville, and via a growing online program. Throughout its degree offerings at the associate’s, bachelor’s, master’s, and doctoral levels, Georgia Southern cultivates community collaboration, world-class scholarship and hands-on learning opportunities.

Georgia Southern University was founded in 1906 as a school for teaching modern agricultural production techniques and homemaking skills to rural school children. Its Savannah campus was established in 1935 as Armstrong Junior College for local youth who could not afford to attend college away from home. The Liberty Center in Hinesville was established in 1998 to serve the military and their families at nearby Fort Stewart, the largest military base east of the Mississippi. All three locations came together in 2018 when Armstrong State University and Georgia Southern University consolidated. The “new” Georgia Southern University preserves a passion for serving its neighbors while preparing students for lifelong service as scholars, leaders, and responsible stewards of their communities.

Within this setting, the Department of Enterprise Systems & Analytics in the Parker College of Business offers a B.B.A. in Information Systems. The Department is a member of the SAP University Alliances and has a strong reputation for being a lead institution in Enterprise Systems curriculum. Faculty members also participate in the delivery of the Department’s Online Graduate Enterprise Resource Planning (ERP) Certificate program with an emphasis in SAP, as well as courses that support the MBA and Master of Accounting programs. In addition to Enterprise Systems, the Department recently added a Business Analytics area of emphasis to its B.B.A. in Information Systems degree program, recognizing the ever-increasing relevance of and demand for skills in the area in the business world.

Position Description: Reporting to the Chair of the Department of Enterprise Systems & Analytics, the lecturer position is primarily a teaching appointment with some service required. The Lecturer will be required to have a master’s degree and relevant industry work experience. The position is a 9-month, non-tenure-track, appointment, and the salary will be competitive.

Required Qualifications:
• Master’s (e.g., MSIS, MBA, or equivalent) degree is required by August 1, 2020, from a regionally accredited institution, with at least 18 graduate semester hours in Information Systems or Information Technology.
• Evidence of effective communication skills.
• Demonstrated substantive knowledge and proficiency in MS Office applications.
Must be authorized to work in the United States for the duration of employment without assistance from the institution.

Preferred Qualifications:
- Professional industry certification relevant to at least one or more areas within the IS degree program.
- At least one year of full-time relevant industry or consulting work experience in one or more of the following areas:
  - SAP enterprise systems software
  - Business Analytics/Intelligence
  - Programming (e.g., Java, Python and/or SAP ABAP)
  - Database management
  - Networks and telecommunications
  - Project management
- Demonstrated significant commitment to, and experience in, teaching & learning, specifically within the broader area of information systems
- Commitment to student engagement and participation
- Online teaching experience
- Interest in ongoing professional development within the discipline.

Screening of applications begins February 27, 2020, and continues until the position is filled. The preferred position starting date is August 1, 2020. A complete application consists of a letter addressing the qualifications cited above; a curriculum vitae; (un)official copies of transcripts of all prior degree studies; recent teaching evaluations (if prior teaching experience), including all originals, in addition to any summary; and the names, addresses, telephone numbers, and email addresses of at least three professional references. Other documentation may be requested. Only complete applications submitted electronically will be considered. Application materials in the electronic submission must be in either Word or PDF format to be accepted. The subject line in the electronic submission should be: Application for Lecturer in Enterprise Systems and Analytics - Search #67752. Finalists will be required to submit to a background investigation.

Applications and nominations should be sent via email to:
Ms. Bonita Simmons-Johnson
Administrative Secretary
Department of Enterprise Systems and Analytics
Email: bsimmonsjohnson@georgiasouthern.edu
Telephone: 912-478-4747
